

S1000D for NH90

Arnold van Winden
24-09-2019

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Content

1. Introduction
2. Implementation of S1000D
3. Authoring and Management
4. Publication process
5. Introduction of S1000D within our organisation
6. Do's and don't

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

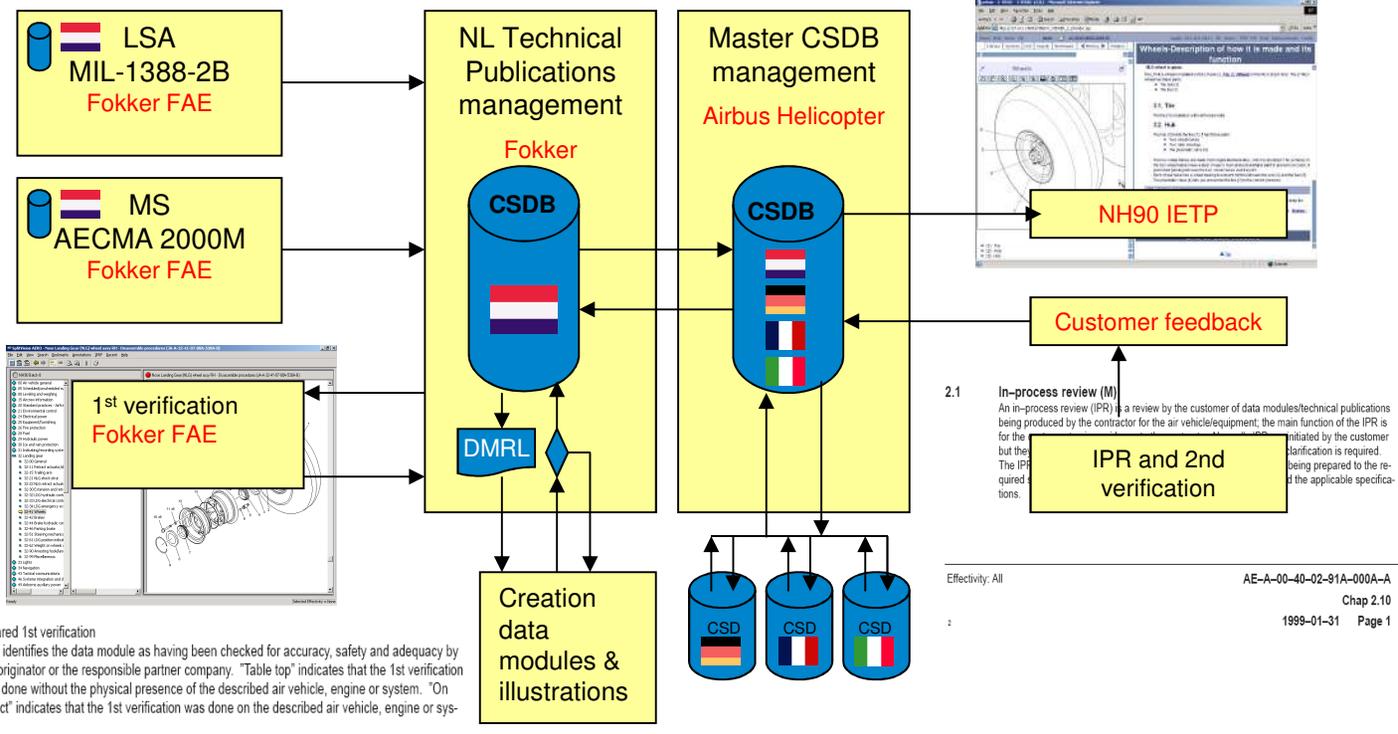

Introduction

- Used for the creation of NH90 S1000D Documentation.
- The old system was installed on a stand alone Notebook, import and export of the DM's was a manual process and fault sensitive.
- In 2016 the existing Acquired system was replaced.
- Within the old system, there was no workflow and “user-defined” checks.

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

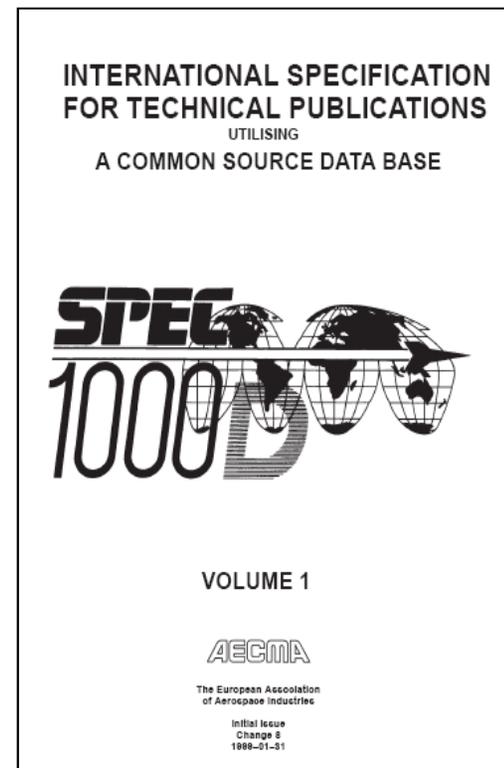

Introduction

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Introduction

- AECMA S1000D change 1.9
- Data modules in SGML format
- DTD's
 - Aircrew
 - Procedural
 - Descriptive
 - IPD
 - Maintenance Planning
 - Fault Isolation
- Information sets
- IETP

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Introduction

NH90 Program Tech Pub Standards:

- AECMA S1000D
- AECMA S2000M
- AECMA Simplified English
- ILS/LSA Standard MIL-STD 1388

NH90 Program Tech Pub Guidelines:

- NH90 Guidance Document
- NH90 Style Guide
- IETP Specification
- CSDB Data Exchange Procedures
- IETP Verification and Release Procedures

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Implementation of S1000D

- Define requirements
- Product selection
- Implementation
 - Project management plan
 - Risk assessment and mitigation
 - Project organisation
 - ICT support
- Start with a pilot
- Evaluation
- Implementation

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Implementation of S1000D

Define requirements

- Commercial off-the-shelf
- IETD suite for the creation of Technical Publications
- Web based - Server/client system
- AECMA S1000D version 1.8 and higher
- Editor for Data Module (DM) creation
- Process for (S2000M) IPL -> (S1000D) IPD data module creation
- Workflow management
- BREX (Business Rules Exchange) support
- Common source DataBase (CSDB) management
- Data Module List (DML) support
- DM transfer package management to NH90 integrator

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Authoring and Management

HiCo IETD suite selected

- IETD suite for the creation of Technical Publications
- Web based - Server/client system
- AECMA S1000D version 1.8 and higher
- Data Module (DM) creation using Arbortext Editor
- Automatic IPL -> IPD DM generation
- Workflow management
- History tracking
- Common source DataBase (CSDB) management
- DM transfer package management to NH90 integrator

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Authoring and Management

Authoring and Management

Editorial work – Material and Warning Setter

The screenshot displays the Arbortext Editor interface with several tool windows open for editing technical data. The main window shows a table with columns for Name, Identification/Reference, and other attributes. A red cube icon is positioned over the 'Identification/Reference' column. Below the table, there are sections for 'Safety conditions' and 'Warning'.

The 'MaterialSetter SPCs' window shows a list of items with columns for Item, BN, IND, Name, and QNA. The selected item is '001 00A 2 Frame 1'.

The 'MaterialSetter lists' window shows a list of items with columns for Name, MEC, and FNR. The selected item is 'Cleaning Agent (fat-dissolving) 1134K EDOSS'.

The 'WCNSetter' window shows a table with columns for Code, Danger, Advanced, Issue, Status, and Content. The selected item is 'W01' with a status of '004' and content 'Warnings are used in data modules and technical publications'.

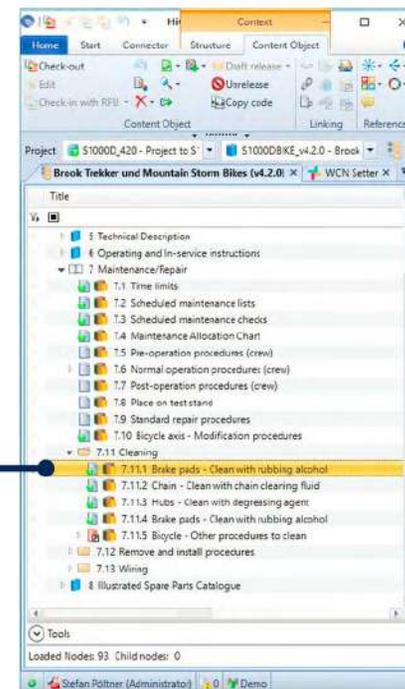

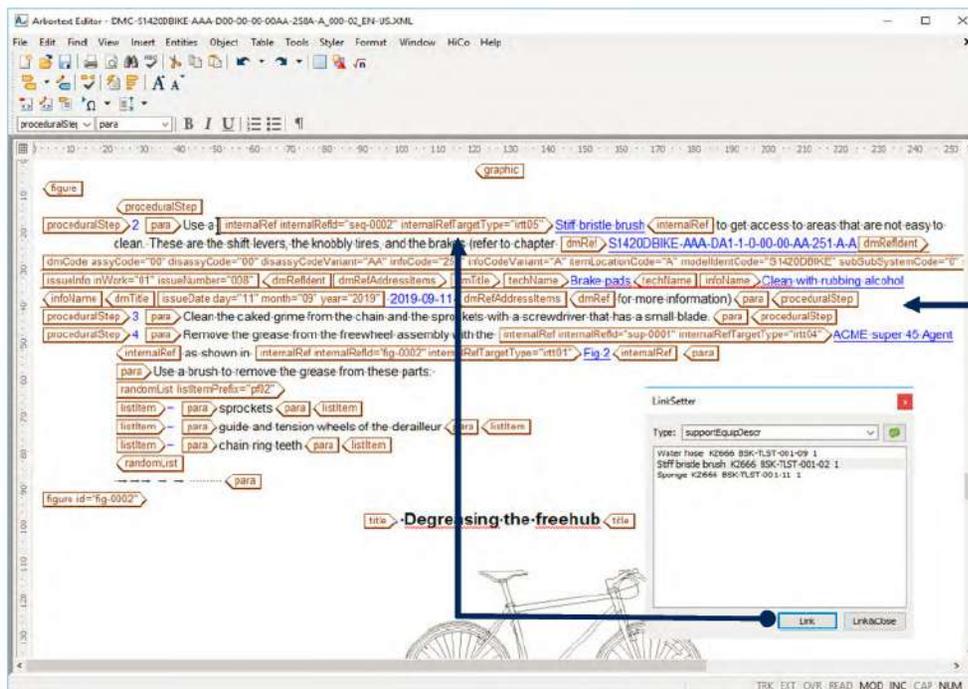

The 'Warning' section in the main window contains the following text: **WARNING** Warnings are used in data modules and technical publications to alert the user that possible hazards are associated with the materials/processes/procedures/limits. These can cause death or injury in any form if the instructions in the operational or procedural task are not followed.

Authoring and Management

Quality Assurance for Illustrators:

The following validations are available for Illustrators:

Validate Hotspots/Legends (only for CGM/SVG)

Info Processing Content Object 'DMC-S1420DBIKE-AAA-D00-00-00AA-041A-A'.

Info * Found 1 figures to validate

Info * Validating Figure 'Complete bicycle'

Warning ** No Hotspot element exists for Illustration Hotspot 'hot001a' (1) in Illustration 'ICN-C0419-S1420D0360' (en-US).

Warning ** The Illustration 'ICN-C0419-S1420D0360' contains '17' hotspots, but the figure has no legend. (hot000/0, hot001/1, hot001a/1)

Validate Illustrations (only for CGM/SVG)

Info Processing Content Object 'ICN-07GB6-BIKECI4201-001-01.CGM'.

Warning Schematron Assert at '/root[1]': '@desc:ProfileId = 'WebCGM' in '/root': Profile must be WebCGM 2.1 (but ProfileId is '')

Warning Schematron Assert at '/root[1]': '@desc:ProfileEd = '2.1' in '/root': Profile must be WebCGM 2.1 (but ProfileEd is '')

Warning Schematron Assert at '/root[1]': 'aps[@type = 'layer' and apsattribute[@name = 'layername' and text() = 'ICN']]' in '/root': There is no ICN layer

Invalid Media Containers Report

Warning 1 invalid Media Container references found in 'DMC-S1420DBIKE-AAA-D00-00-00AA-121A-A (en-US)'

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Authoring and Management

Quality Assurance for QA-Manager:

The following additional validations are available for QA-Manager:

Validate IETD Transfer Packages

Info * Processing Content Object 'DMC-S1420DBIKE-AAA-DA0-00-00AA-041A-A_009-00_EN-US'.

Info * OK

Warning TechName must be equal to the SNS node name of DMC. Expected value: 'Bicycle' - Found value: 'Wheels' (Line 25)

Warning InfoName must be equal to the Project-Infocode name of DMC. Expected value: 'Description of how it is made' - Found value 'Description of how it is made: Knowledge Check' (Line 25)

Warning IssueType must be filled out. (Line 25)

Warning IssueType " does not comply to the list of allowed values: deleted, changed, new, rinstat-changed, rinstat-status, rinstat-revised, status, revised. (Line 25)

Compare data modules

Notice Result for 'DMC-S1420DBIKE-AAA-DA0-30-00-00AA-720A-A_002-00_EN-US', differences: '3'

Notice * XPath: '//displayText/simplePara' , differences: '1'

Notice ** Source[0]: 'Mountain bicycle and (Mountain storm Mk1 or Brook trekker Mk9)' , Target[0]: 'Mountain bicycle and (Mountain storm Mk1 and Brook trekker Mk9)': The Applicability has been changed.

Notice * XPath: '//manufacturerCode' , differences: '1'

Notice ** Source[0]: 'KZ666' , Target[0]: 'KZ233': The Manufacturer has been changed.

Notice * XPath: '//partNumber' , differences: '1'

Notice ** Source[0]: 'BSK-TLST-001' , Target[0]: 'BSK-TLST-001A': The Part number has been changed.

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Publication Process

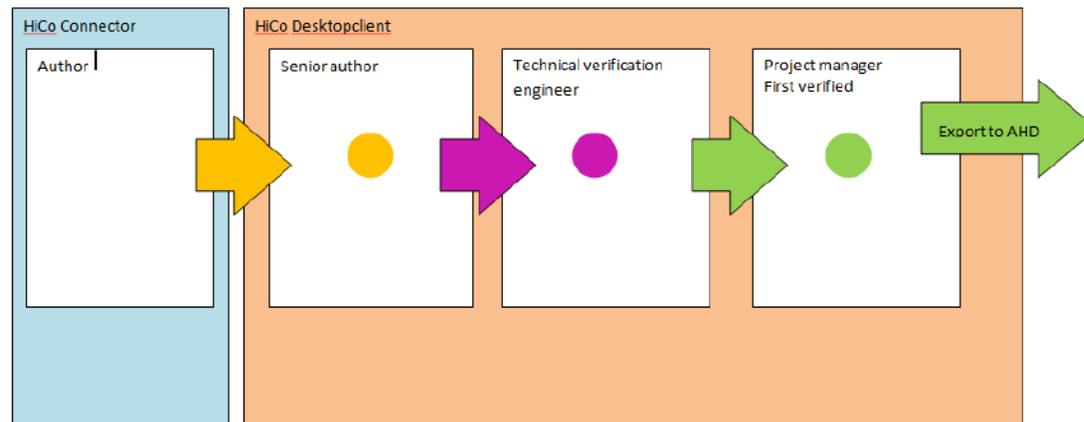

- Within the IETD suite met de module “X-Publisher®”
- Preview van DM's in PDF and/or HTML
- Publication of DM's and manuals in PDF, HTML and PDF.
- X-Publisher®, Designer module for creation and configuration of previews and publications.
- Design of title pages, frontmatter, headers and footers.
- For NH90 creation of Transfer Packages including Data Dispatch Note (DDN)

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Introduction within our organization

- Training for authors, material support, project manager and administrator.
- On-line access for ILS-team, PDF and HTML view.
- Turn around time for incorporation of changes significantly reduced (CR, ECP, TNs and IPRF's)
- Define work-flow

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Do's and don't

- Use a key-user and involve steak-holders
- Start with a pilot project
- Evaluation and lessons learned after pilot
- Training
- Make use of a dedicated test and production environment
- Devine workflow (Supported by DOM and workinstructions)
- Use BREX and Schematron for QA checks

The information enclosed is proprietary and is provided to you on a strictly confidential basis.

Thank you for
Your attention
