Tailor-made training

In addition to our regular offer, the Verebus Academy also provides tailor-made training, in which the content and level of the training are adapted to the needs of the organisation. This can range from a short introduction training to an intensive course of several months.

Preliminary knowledge

All training and courses require a minimum of a higher vocational education (college) level.

To participate in follow-up training courses, we expect you to have attended the introductory training course or to have comparable knowledge.

General

Our training courses are scheduled several times a year. Go to www.verebus.nl/training for our current training calendar or to request a (tailor-made) training course. Or send us an email at academy@verebus.nl.

Leading in Knowledge

The most important asset of Verebus Engineering is the expertise and know-how of our employees. In order to reinforce this unique position, we set up the Verebus Academy to share this relevant and up-to-date knowledge with our clients.

Whether you're looking for a workshop, short training, or longer course, Verebus Academy is the training partner in the field of ILS, S-specifications, technical documentation and RCM.
